#### Summer Complaint in Children.

There is not anything like so many deaths from this disease now as before Chamberlain's Colic and Diarrhoea Remedy came into such general use. When this remedy is given with castor oil as directed and proper care is taken as to diet, it is safe to say that fully ninety-nine out of every hundred cases recover. Mr. W. G. Campbell of Butler, Tenn., says, "I have used Chamberlain's Colic and Diarrhoea Remedy for summer complaint in children. It is far ahead of anything I have ever used for this purpose."

"About two years ago when suffering from a severe attack of summer Mrs. Albert Kempf and son, complaint, I took Chamberlain's Colic and Diarrhoea Remedy and it relieved me almost instantly," writes Mrs. Henry Jewett, Clark Mills, N. Y. This is an excellent remedy for colic and diarrhoea and should be kept at hand by every family.

Austin, Texas- A survey of school children's health, which the public health nurse declares to be typical of the entire state and other states, has recently been completed by Miss Pearl N. Hyer, R. N., public health nurse of the Texas Public Health Associa-

Miss Hyer made examinations, assisted by local physicians, of 729 children in a certain North Texas town. Among these 729 school children, 1656 defects were found-over two defects per child. The number with enlarged tonsils were 297, 31 were submerged tonsils, 122 that needed eyelids treated, 97 that had adenoids, 150 who needed glasses badly; 136 with defective hearing, 385 that needed teeth treated, 119 who needed gums treated, 20 who were over 10 pounds overweight, and 299 who were five pounds or more underweight.

"This survey seems typical of conditions throughout the greater part of Texas," said Miss Hyer, "and examinations show that over fifty percent of the children have defective teeth, and more than that percentage have bad tonsils, while a large number have defective hearing or eyesight.

"Every community needs a public health nurse, so that these defects may be discovered and corrected in youth, and so that the children may grow up into strong, healthy, happy men and women. It is the duty of the people of Texas to provide 'health insurance' for the citizens of the fu-

In three citites of Texas Miss Hyer has recently completed school examinations and demonstrations, and in these three places public health nurses will be secured immediately.

#### Help For Those Who Have Stomach Trouble.

After doctoring for about twelve years for a bad stomach trouble, and spending nearly five hundred dollars for medicine and doctors fees, I purchased my wife one box of Chamberlain's Tablets, which did her so much good that she continued to use them and they have done her more good than all of the medicine I bought before. -Samuel Boyer, Folsom, Iowa.

#### Loss of Appetite.

As a general rule there is nothing serious about a loss of appetite, and if vou skip a meal or only eat two meals a day for a few days you will soon have a relish for your meals when meal time comes. Bear in mind that at least five hours should always elapse between meals so as to give the food ample time to digest and the stomach a period of rest before a second meal is taken. Then if you eat no more than you craye and take a reasonable amount of outdoor excercise every day you will not need to worry about your appetite. When the loss of appetite is caused by constipation as is often the case, that should be corrected at once. A dose of Chamberlain's Tablets will

Supermen have given their souls for the lovelight that lies for a

little while in women's eyes. Seek back through all ages and you will find that the most heroic deeds, the most worthy books, the most wonderful creations of art and science have often been inspired by a woman, while even the progress of civilization itself has often been a flower of tribute for the hands of a whimsical woman to preserve or destroy. As millions have aspired to write the most discussed play, to lead the most successful army, to head the greatest nation, thousands and thousands have endeavored to write the most popular songs. Probably, Johnny Black has that honor now, and, if so, he owes it, he says, to his love for a woman. Her name is "Dardanella," and, because Johnny loved

Ball Restored To Health Four Years Ago By Taking Tanlac -Good Effects Continue.

"I was entirely relieved of my troubles four years ago by Tanlac and have enjoyed the best of health ever since," said Edward Ball, a wellknown farmer who lives on Route 3, Box 8, Duluth, Minn.

"For two years I had the worst sort of stomach trouble and rheumatism." continued Mr. Ball, "what little I managed to eat would sour on my stomach and I was so nauseated after nearly every meal I could not retain a thing. I would suffer terribly from gas and, to add to my other troubles, I was taken with the rheumatism in my legs and knee joints and got in such a bad fix I could hardly get up and down

"After trying a lot of other things which did me no good I started taking Tanlac and, believe me, I soon feit like a new man. My appetite came back and I could eat anything I wanted without it hurting me the least bit. The rheumatism left me entirely and, as I stated before, although this was four years ago I haven't had a trace of bad health since. I always keep Tanlac in the house and once in a while take a little, for I believe it will keep anybody in fine shape and I am always recommending it to some-

#### KEEP TROUBLES TO YOURSELF

The World, as a General Thing, Has Little Use for the Man Addicted to Self-Pity.

The trouble with the man in a little trouble is that he is inclined to pity himself and imagine that he is the only man who ever had a trouble.

All he can see in the moment of his irritation in his own burden. It seems not to occur to him that at the very moment he is wrestling with his difficulty thousands of people around him are fighting against far greater odds

and in much greater danger. Trouble, anyhow, is a part of the game of life. Nobody ever went anywhere or did anything worth while without meeting it in one form or another. Let others pity you if they will, but don't waste any time pitying yourself. The chances are that your next door neighbor would be tickled to death if such troubles as you have were all he had to worry about .- Ex-

# Ride on Goodyear Tires in That Sturdy Small Car of Yours

It surprises certain users of small cars to find that they can obtain Goodyear Tires at a first cost ordinarily not greater, and sometimes less, than that of other tires.

This initial value, as well as the very low final cost, results from the application of Goodyear experience and care to their manufacture in the world's largest tire factory devoted to 30x3-, 30 x 31/2- and 31 x 4-inch sizes.

Such facts explain why more cars, using these sizes, were factory-equipped last year with Goodyear Tires than with any other kind.

If you drive a Ford, Chevrolet, Maxwell, or Dort take advantage of the opportunity to enjoy real Goodyear value and economy; equip your car with Goodyear Tires and Heavy Tourist Tubes at the nearest Service Station.

#### SMALL GIRL FANNED FLAMES

Little Daughter's Remark Gave Papa Just the Opportunity He Had Been Looking For.

Supper had been a fiery meal from the beginning. To begin with, the head of the house had been peeved because it was a little late and had not hesitated in calling down his wife for that defect. To retaliate, she had mentioned and then elaborated on all the shortcomings he had displayed for weeks. Finally the small daughter thought she would change the subject. She remembered that father had asked the family to remind him of certain obligations to be met that week. And she asked sweetly: "Father, did you pay your assurance today?"

Her mother, peeved at the interruption of her monologue, fixed her stern eye on her small daughter. "When will you ever learn to say things right?" she asked. "That is insurance -not assurance."

A peculiar smile came on father's face. "Oh, Mary," he said to his wife in his most provoking way; "don't scold the child. I guess she has it about right, anyway. It's the only assurance you will have of getting another husband should I pass in my

#### **EFFICIENCY DEPENDS ON REST**

Refreshing Influence of Weekly Abstention From All Labor Cannot Be Overestimated.

The refreshing influence of the weekly "day of rest" on a person subjected to the strenuous routine of a busy life is a feature which he himself can duly appreciate in the effects on his "feelings" and "spirits." The efficiency of the workingman, the length of the working day, the interjection of pauses for rest in the schedule of labor for persons of different ages and stations in life-questions of this sort are constantly arising for solution on a scientific basis. Not only in the field of manual labor, but also in the case of the school child, the office boy, the factory girl, the banker and the merchant, efficiency is the keynote of the times. Fatigue is the enemy of efficiency; and to detect and compensate for or overcome it is the duty of those concerned with the promotion of human welfare.

# YOUR DREAMS AND HOPES COME TRUE?

What is your dream? Is it to own your own home some day? Is it to buy a farm for yourself or to set up your own business?

Is it your dream to give your children a bet'er education than you had yourself-to see your boy or girl equipped for life by college training? In your dreams, are you planning for the future of your little people?

When the sun of life is going down, is it your dream to have accumulated 511 Gibbs Bld'g. Phone Travis 468 enough to live on in comfort without financial worry? Is it your wish to have more for the rainy day than a worn-out umbrella?

Do you want to own your own car? To travel, perhaps, and see something of this great country of ours?

What is your dream? You have one. Whatever it may be, you will certainly need more money than you have now to make it come true.

A dream worth dreaming is one worth working and saving for. Start now to make your dream come true. Saving will make your dream come true. Had you thought of the opportunity you have in War Savings Stamps and Thrift Stamps to save and make that dream real? They are Government bonds that rapidly turn quarters and dollars into five-dollar bills. In denominations from twenty five cents on up, which make saving in any amount easy, they can be gotten at the United States Postoffice.

They will help you make your dream come true.

## Come into our store and ask for Mr. Edison's REALISM TEST

T reveals to you the Supreme Realism of the New Edison, the phonograph with which Mr. Edison has challenged the talking-machine manufacturers of the world.

It shows you the charm of music's imagery. It transports you to the far-away. It makes you lose consciousness of your surroundings.

#### This Fascinating Test

enables you to determine, in an interesting and scientific way, whether the Realism of the New Edison gives you the same emotions as the living singer's voice as the sound of the actual instrument-or as the performance of great bands and orchestras.

#### Noted Psychologists

endorse this entertaining experiment as the correct way to ascertain the New Edison's Realism.

You, too, may enjoy this experiment. We invite you to try it.

It will answer, once and for all, your questions, Can I have the voices of living singers at my beck and call in my own home? Can I have the great orchestras and bands of the world exactly as they sound?"

#### HOW FAYETTE COUNTY PEOPLE ARE SAVING

Fayette County, Texas, is a community of homes and large families. It's inhabitants are proving that it is also a community of thrift, saving and safe investment and disproving the theory that large families are an obstacle to saving. These facts are clearly shown by reports to the Savings Division of the Treasury from residents of foreign birth and extraction who have pledge themselves to save systematically a certain sum before the end of this year and invest it in government securities.

John Baca, with 12 members in his family, heads the list with a pledge of \$500 between now and Dec. 31. Josef Stryk and J. Smolik, each responsible for the support and happiness of 7 citizens and F. L. Herzik with 4 in his family have each pledged themselves to buy \$100 worth of War Savings Stamps before the new year. Josef Stasny has a household of 10, but he declared himself both able and willing to save and invest a like amount.

In the \$50 column are Frank Buzek, John Michal and John Mikulik Sr., all with families, while John J. Novak with 8 and J. Horelica with 11 dependent upon them are got to save \$10 each. What are going to save?

# RACHMANINOFF

A Commanding Figure in World of Music By ROY T. BURKE

NEW YORK. - Sergei Rachmaninoff, composer, conductor and pianist, is one of the most commanding figures in the world of music today. Certainly the art of no musician of recent years has been more widely commented

Rachmaninoff is today practically an exile from his homeland. The unhappiness and misery, the bloodshed and the political, social and industrial upheavals that have been Russia's fate during the past few years, have left their permanent impression upon him.

I recently called on Mr. Rachmaninoff at his American home in East Ninety-second Street, New York City. Although he speaks English, slowly and distinctly, but rather hesitatingly, he uses French mostly in conversing. His long, delicate fingers graphically aid him in emphasizing his statements. He is tall and broad-shouldered. His rugged face is that of the satile pen. He was born in the genius who accomplishes practical province of Novgorod, Russia, and things. Rachmaninoff, the planist, is always pre-eminent in crystallic are the C Sharp Minor Prelude, clearness of technique and in his finished execution. The deep personality of the poetic genius surges through his every interpretation, whether it is as pianist, composer or conductor. Sometime ago I was one of a party that listened to Rachmaninoff's interpretation of the "Second Hungarian Rhapsodie," Liszt's composition that every amateur pianist His symphonies are among the plays or attempts to play.

One feels that Rachmaninoff, the musician perfect, the artist supremely sympathetic, assumes the mantle of Liszt, the pianist brilliant, and originally and incomparably interprets the soul and reveals the heart of the Second Hungarian Rhapsodie." In Rachmaninoff's interpretation he interpolates his own cadenza, pregnant in brilliancy, but deeply sombre in its Cossack strain, in passing in the "Rhapsodie" from the lassan, or slow movement, with its indolence of the Gypsy East, and its fragrance of heavenly scented harems, to the friska, or fast movement, vibrating with the dash and vigor of the Magyar peasant dance and pulsating with a throbbing of the velvet-throated chimes of the Hungarian desertwinding caravans.

He says that the American orchestras are the finest and the American people the most musically appreciative. But he repeats the criticism so often made by foreign musicians of the chances offered American students to obtain a better education. "In many American cities," he says, "I understand often concert tickets are so expensive that many students cannot afford to attend, while in Russia a student who displays ability above the average is recommended to the director of a conservatory as worthy of the privilege of attending the final rehearsal of orchestral concerts.
